Subject: NCS Multistage to Combine with Weatherford

Dear [NAME],

I am writing with an important update about NCS Multistage. Today, we announced that NCS has agreed to be acquired by Weatherford International plc in a transaction consisting of cash and stock. You can read the joint press release here:

<https://ir.ncsmultistage.com/news-releases/news-release-details/weatherford-announces-definitive-agreement-acquire-ncs>

As you likely know, Weatherford is a leading global energy services company with a deep product and services portfolio across drilling, well construction, completions, and production, and an international footprint that spans dozens of countries. We believe this combination will allow us to deliver an even broader, more integrated set of solutions to customers across the full life of the well — supported by Weatherford’s scale, technology, and global reach.

Until the transaction closes, which we currently expect in the second half of 2026, subject to certain customary closing conditions, including regulatory approvals, NCS and Weatherford will continue to operate as separate, independent companies. This applies equally across NCS, Repeat Precision, and ResMetrics, each will continue to operate under its current name with the same teams. Importantly, there will be no changes to the way we work with you as a result of the pending transaction. Your day-to-day contacts remain the same, and you should continue to send all invoices to the same groups as you do today.

If you have any questions, please reach out to me or to your regular contact at [[NCS][Repeat Precision][ResMetrics]].

Thank you for your continued partnership and we look forward to continuing to work together.

Best regards,
